Dear Ian & Mandy,

Thank You, for your help in kitting out & maintaining the equipment in our butchery at the **Newby Hall Farm Shop**. (eg The Henkelman Vac Packer, ABM meat slicers and the amb Mincer.) Good branded equipment is available from many sources these days. A top level of service is however harder to find.

Your small dedicated team have been particularly useful in recommending the right type & size of equipment, to suit our purpose. (Thereby avoiding the need for costly upgrades a little later on.) It is obvious that they & consequently we, have benefitted from their many years of experience in the food production industry. They have excelled in responding speedily & reasonably to all our butchery needs. When our equipment has required removal for servicing, replacement kit has been left free on loan until our equipment was returned.

In summary your common sense approach to business, your range of stock & your understanding of the industry has led me to confidently recommend J&N Food Equipment Ltd on several occasions, to those requiring food processing equipment.

Best Wishes

Mark Maxwell
